an emis brand

## SH Series

### Roll to Sheet Label Machines with ONE COLOR Flexo by FLEXOR<sup>®</sup>

innovative solutions in slitting, rewinding and die cutting

#### HIGHLIGHTS:

- Fully Servo motor driven
- Web width up to 440mm
- Shingle Stream delivery
- Optional ONE COLOR Flexo Station
- Re-register / Print to register functionality
- Sheet label Production (any size)

Shingle stream  
delivery table for  
sheeted labels

Re-register  
sheeting,  
die cutting and  
printing

Servo driven flexo  
station for coating  
or printing

innovations for tomorrow

[www.flexor.pl](http://www.flexor.pl)

- Servo Technology** Latest servo motor technology ensures perfect web tension
- Sheet Label** With a double gearing of 1/8inch and 1/32inch tooth pitch any size sheet can be easily produced
- One Color Flexo** With this servo driven one color flexo unit you can now print sheets and labels and free up more press time
- UV/ IR/ Corona** Drying by UV, IR or a pretreatment using Corona with our machine you can now have it all
- Shingle Stream** The shingle stream delivery table will count sheets and batches as well as form batches after a certain amount of sheets
- Matrix Rewinder** High quality servo driven matrix rewriter ensures that even the most difficult matrix can be rewound easily
- Web Decurler** With our innovative web decurler device all sheets produced will be straight with any curvature
- Perfect Sheeting** Perfect tension during sheeting process is key to speed and quality hence every FLEXOR slits between two servo driven Nips
- Build in IQ** 250 Job Memory, Online Diagnostics, multi lingual support
- Ergonomy** Designed with the operator in mind, the machines are user friendly and easy to setup
- Flexibility** Highly versatile with many optional extras make the FLEXOR machines your choice no.1
- Efficiency** FLEXOR stands for efficiency, high speed, high quality and durability - Test us!
- Service Promise** Reliable, quick and formless!
- Commitment** We commit to not only be your supplier but your partner for now and the future!
- Our customers** From multi-nationals to family owned businesses we are present on all continents!

**MORE POSSIBILITIES**

The SH Series stands for highly versatile sheeting machines and unique solutions which allow our customer to manufacture almost any sheet size using any material. If it's A5, A4, A3 or SRA3 or any other size this machine will deliver you what you expect. With a double gearing you can use a 1/8inch tooth pitch or a 1/32inch tooth pitch to sheet any size. It is highly efficient, fully servo driven and easy to setup. With FLEXOR's unique sheeting technology and accuracy you will in no time be producing high quality sheets made to order. Our FLEXOR sheeters are used to manufacture small batches of 10 sheets or long runs with batches of 500 sheets - it is your choice!

Join our long list of satisfied customer today and book a reference visit to see our machines perform.
